Sustainability & Eco Friendly

Products within our range are sourced from resource efficient & reliable companies who strive to reduce their environmental impact. Consideration is given to manufacturing processes, raw materials & waste disposal when selecting these products. We also ensure Manufacturers and products have Sustainable and Eco Friendly certifications.

Putting confidence in your compliance ✓

With the increasing amount of complexity, compliance and regulation entering the industry, we saw the need to further support our network of customers.

Our team partner with you to ensure your teams are equipped with the tools to exceed hygiene, WHS and compliance standards while creating greater efficiencies and deliver cost savings in the workplace.

More than just great products:

- Product & Training Experts
- Online Procurement Platforms
- Industry Best Customer Care
- Innovate your Product Range
- Customised Management & Reporting
- Confidence in Supply & Australian Owned

WORKING WITH YOUR BUSINESS - BEST SOLUTION FOR YOUR NEEDS

Introduction to your Business

It is ideal for our teams to meet onsite, build a relationship and discuss where your current pain points are, and where you need be.

Site Survey & Product Audit

Our team will conduct a comprehensive site audit to identify any issues and improvements to your products, services and systems.

Create a Plan for your Business

Based on discussions and site audit a plan will be created to determine the best products for purpose timelines and a rollout for your business.

Delivery & Installation

Our delivery team and technicians will arrange equipment installation and product delivery to ensure ease transition and to minimise disruptions

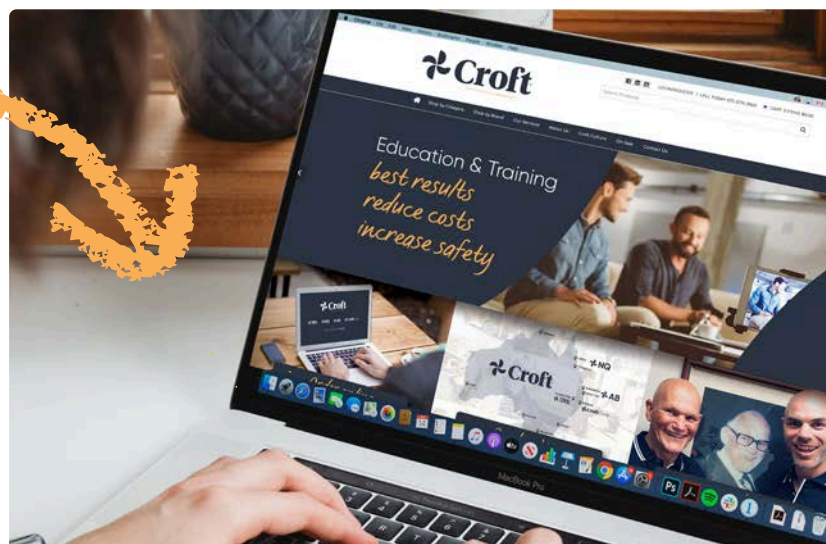

Education & Training

Your team will be trained across all new equipment and products through both direct onsite training and customised online training portal.

Ordering at a click of a button

Our state of the art on-line ordering system allows account customers the flexibility to:

- Submit orders at the click of a button.
- Review your purchase history
- Keep track of stock orders
- Allow manager approvals
- Create order templates
